

**Saint Francis of Assisi Parish  
Stewardship Service Group  
Recycling & Shredding Project**

The Computer Items Recycling and Document Shredding Project held on September 24<sup>th</sup> collected a mountain of “e-waste” a/k/a outdated computer equipment and shredded countless confidential & legal documents. The response of our Parish and the Manitowoc community made the project a huge success.

The Wisconsin Communities Recycler Co. of Milwaukee and Valley Mobile Shredding Inc. of Manitowoc provided the recycling services. A goodwill offering of non-perishable food and/or a cash donation was available to those who used the recycling services. The food collected (more than 600 items) and the cash donated (\$578.00) was contributed to St. Vincent de Paul. Four truck loads of e-waste were transported to the Recycling Center near Milwaukee.

**Thanks to all of you** who helped promote, run and make this project such a huge success. They include the Parish Stewardship Service team, volunteer Parish members, Parish Administrative and Maintenance Staff, those who responded so kindly to prayer requests and to all those in our community who donated their “e-waste” and “document” items.

Thanks again as you helped make our town a little cleaner and greener.
